

Production control and expediting measures, evaluates, expedites, and improves manufacturing processes. These services check adherence to schedule, audit production processes, and act to enhance schedule performance. Verify provides on-demand production control and expediting services at supplier locations around the world to help customers avoid expensive delays due to late product delivery.

VERIFY BEST PRACTICE

DESIGN

Create customized production control programs that include procedures, checklists, forms, and training programs.

RESOURCE

Screen and qualify Project Specialists based on job skills and proximity to suppliers.

MANAGE

Program manage and technically support production control services utilizing online tools for real-time access to schedules, status, results, and reports.

BENEFITS

- ◆ Recover late product delivery at under-performing suppliers
- ◆ Identify delivery risks and monitor production progress as it happens
- ◆ Understand supplier capabilities and determine production bottlenecks
- ◆ Increase flexibility for changes in workload
- ◆ Identify opportunities, drive schedule improvements, and reduce costs

APPLICATIONS

CHECK SCHEDULE ADHERENCE	AUDIT & EVALUATE PRODUCTION PROCESSES	ACT TO IMPROVE SCHEDULE PERFORMANCE
SUB-TIER SUPPLIERS	SUB-TIER SUPPLIERS	EXPEDITE PRODUCTS
WIP STATUS	PLANNING INTEGRITY	SUB-TIER SUPPLIERS
QUEUE TIMES	PROCESS STABILITY & CAPACITY	WORK DESIGN IMPROVEMENTS
REWORK AND SCRAP	WORKFLOW CAPABILITY ASSESSMENT	LEAN MANUFACTURING
